

Vitalizm Farms

2020 Community Supported Agriculture (CSA) Agreement 22 Weeks, from May 22 to October 30

Vitalizm Farms is committed to growing community and sustainability through growing delicious and gourmet food. We strive to develop soils that provide important ecosystems for all living things, including humans. We rely exclusively on ecological and biodynamic organic farming methods which beneficially promote and enhance biodiversity, biological cycles, and biological soil activity. The goal is to create tasty food and to maximize the nutritional value of the food we grow.

As a shareholder, you agree to share in the inherent risks of farming and agriculture, which include but are not limited to unforeseen diseases and pests; unusually severe weather such as prolonged heatwaves, drought, hail, strong winds, early frost, etc.; natural disasters such as tornadoes, fires and floods. However, you will also share in the rewards of a bountiful harvest resulting from optimal growing conditions and good farming practices.

If for some reason you can't make that 2nd day, we will donate your share to Our Center. I don't anticipate this happening but want to have contingencies.
